

NEA 430

Dense Phase Powder Pump

U.S. PATENT 11.536.296

NEA 430 is an entirely pneumatic transport device for powders, granulates and polymers, dense phase low pressure, which guarantees a high and constant flow rate of the product. It is also available with a pump body made of FDA compliant materials.

Product change in less than one minute

The innovative cyclonic valve allows an accurate and uniform cleaning of powder residual in pump body and transporting piping.

FLOW RATE:	Up to max 4 Kg/min
ASPIRATION TUBE:	Up to max 3,5 mt
TRANSPORT TUBE:	Up to max 30 mt
SELF CLEANING:	Included
SUPPLY:	6 bar
